REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: independent claims 1, 15, 18, and dependent claims 2-5, 7-11, 14, 16-17, and 19-20 are allowed over the prior art of record. Pre-treatment of sea water with the listed compounds to precipitate a salt or plurality of salts in sea water is taught in the prior art of record, the desalination units, e.g reverse osmosis, evaporation units, and the amount of the precipitant added salts, oxide, hydroxides, or the resulting required pH to cause the precipitation are also known and disclosed in the prior art of record. The prior art of record also teaches further treatment of the concentrate stream to recover salts re-used in the precipitations step(s) with ad without combination with additional desalination to recover water and produce salt from the process, see patents 3,350,292. Rejection based on 4,036,749 is withdrawn, as lacking the teaching of "recycling the concentrated stream to form a mixture with sea water as require in claims 1, 15 and 18, step (E) as now amended. The Examiner agreed with applicant's comments about the treatment of the brine or concentrate in patent '479.

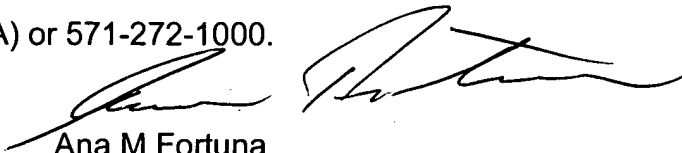

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance:"
